2023

Humphrey Alumni Global Policy Series:
Egypt Sustainability Conference:
Economic Development, Climate Change and Public Health

Cairo, Egypt
Hubert H. Humphrey Fellowship Program

The Hubert H. Humphrey Fellowship Program, a Fulbright exchange, enhances leadership among international professionals who collaborate to address local and global challenges and foster change for the collective good. Through a combination of academic studies and tailored professional development opportunities with U.S. counterparts, Egyptian Humphrey alumni representing the wealth and diversity of Egypt's human capital and the strength of its institutions have received training in various sectors, including healthcare, education, the judiciary, human resource management, finance and banking, media and communications, agriculture, government, and natural resources. Egyptian Humphrey alumni are affiliated with 78 different employers among ministries, universities, public and private institutions, as well as international organizations. Among its many accomplishments, the Humphrey Program has supported women in the workforce, commitment to public service and diversity. Over 100 Humphrey fellows from Egypt, of which 40% are women, have received leadership training and human capacity building through the Humphrey Fellowship Program.

Humphrey Alumni Global Policy Series

In recognition of the Humphrey Fellowship Program's 45th Anniversary in 2023-2024, the Humphrey Fellowship is launching the Humphrey Alumni Global Policy Series. This series convenes Humphrey alumni across world regions for policy dialogues addressing crucial global concerns and challenges at the national, regional, and local levels.

Egypt Sustainability Conference: Economic Development, Climate Change and Public Health

On June 20, 2023, the Binational Fulbright Commission in Egypt is convening the Egypt Sustainability Conference: Economic Development, Climate Change and Public Health, in celebration of the 45th anniversary of the Hubert H. Humphrey Fellowship. The event will feature roundtable dialogues, engagement with key stakeholders and networking activities, as well as showcase the contributions and critical value of alumni in addressing Egypt's national agenda and 2030 vision. It will provide an opportunity for alumni to collaborate through their experiences, discuss their current projects and the impact of their work on sustainability goals. Alumni-led interdisciplinary discussions will focus on sustainability, climate change and environmental issues, and economic development; public health and the well-being of individuals; as well as Humphrey alumni in national and global projects. A banquet and networking reception for alumni and guests will follow the conference.

Venue: Conrad Hotel, Cairo - Egypt

ABOUT

Binational Fulbright Commission in Egypt

The Binational Fulbright Commission in Egypt (BFCE) was established in 1949 by a protocol between the governments of the United States and Egypt as an educational foundation with the primary goal of promoting educational and cultural advancement in the two countries through the exchange of ideas and expertise. The existence and sustained implementation of the 1949 protocol and subsequent protocols are proof of the commitment of Egypt and the United States to investment in human resources and mutual understanding. The Commission is governed by a binational board of directors who hold positions in government, business and academia. The Commission is funded by an annual appropriation from the United States Congress and by an Egyptian Government endowment.

The Fulbright Program in Egypt has evolved from a modest exchange of U.S. and Egyptian students and scholars to become one of the oldest and largest programs in the Middle East serving and linking a wide range of scholarly and professional communities. To-date BFCE has awarded over 8,000 grants to American and Egyptian Fulbrighters. Fulbright Alumni become ambassadors, not only of good will and international understanding, but also of leadership, management excellence, best practices, innovation, information and ideas. The Commission administers a number of programs with the cooperation of its U.S. based and local Egyptian partners, including the U.S. Department of State, Egyptian Ministry of Higher Education and Scientific Research, Egyptian Ministry of Foreign Affairs, the U.S. Embassy in Cairo, Supreme Council of Egyptian Universities, USAID, AMIDEAST, Institute of International Education, the Council for International Exchange of Scholars, World Learning, as well as Egyptian and U.S. academic host institutions. The Commission highly appreciates the collaboration and support provided by its partners towards advancing the Fulbright Program in Egypt throughout over seven decades of educational and cultural exchange.
